

Excluded: Procedure not routinely funded

Thames Valley Priorities Committee Commissioning Policy Statement

Policy No. TVPC68 Female Sterilisation

**Recommendation made by
the Priorities Committee:** July 2017

Date of issue: **December 2017**

Thames Valley Priorities Committee has reviewed the provision of female sterilisation services across Thames Valley CCGs.

Due to associated levels of regret and the availability of more cost effective methods of contraception, female sterilisation is **not normally funded**.

NOTES:

- Potentially exceptional circumstances may be considered by a patient's CCG where there is evidence of significant health status impairment (e.g. inability to perform activities of daily living) and there is evidence that the intervention sought would improve the individual's health status.
- This policy will be reviewed in the light of new evidence or new national guidance, e.g., from NICE.
- Thames Valley clinical policies can be viewed at <http://www.fundingrequests.ccsu.nhs.uk/>
